It's a common theme in the business world: Organisations constantly strive to grow and look for ways to expand. Because business expansion opens doors to exciting opportunities.

At Gujarat Terce, we have made considerable investments in our business to expand our horizon beyond the established into the unknown.

We went into new districts of existing states and new states. We hired new people. We intensified our market awareness.

The results were heartening. But we believe that we have only scratched the surface yet. We remain singularly focused on the future to generate superior returns from our investments. Our best is yet to come.

From the Chairman's office

“We are in the early stage of our growth story, with tremendous runway ahead of us. We will continue to build on the strong initiatives that are in place while exploring new opportunities.”

Dear Friends

I am immensely pleased to write to you after an eventful year.

We entered the fiscal with strained geopolitical and trade relations consequent to the Russia-Ukraine war. This humanitarian crisis brought soaring inflation that enveloped the developed and developing economies. Resiliently, India stood out like a beacon of hope in a dismal overall economic universe.

The pharma sector continued to build upon the respect it gained globally for efficiently managing the pandemic and supplying vaccines to other nations. But India continued to feel the pressure of elevated input prices due to inflationary headwinds and a fragile supply chain worldwide.

Notwithstanding these challenges, the world considers India a reliable pharmaceutical hub that delivers niche solutions to remedy new-age ailments. The cemented trust in India's pharmaceutical sector capabilities promises to open new growth vistas over the medium term.

For Gujarat Terce, it was an eventful year. We widened our marketing reach significantly, which meant more establishments, more people, and increased costs. While the costs were immediate, the returns came with some gestation. Additionally, persistent

high inflation continued to weigh on our cost sheets. While we reported a sizeable loss in the first quarter, we were able to be back on track in the last quarter of FY23. We hope to carry forward this momentum into the current year.

The question remains how do we do this?

India is a prescription-based, branded generic pharmaceutical market where doctors closely influence the making and sustaining of any brand's position. We are concentrated on the domestic market. Hence our unwavering focus is on strengthening our brand portfolio with new brands and the position of our existing brands to enhance returns.

From a brand-building perspective, we had a very satisfying run in FY23. Eight precious products generated more than ₹1 crore in revenue, a milestone. Two SKUs launched during the year were well accepted in the market, generating month-on-month volume growth.

Our agenda for the year is simple. Grow our precious products in numbers and performance. For that, we will work on the following:

- * Rejuvenate our marketing strategies around our precious products showcasing their USPs and superior efficacy to product-

specific cohorts of doctors to increase their awareness and generate prescriptions.

- * Focus on increasing the productivity of our field force, individual and collective, in the states of our presence.

- * Launch chronic therapies with superior solutions to seed our future growth levers.

- * Continue to entrench deeper into the states of our presence until we have covered every district, we wish to be present in.

The combination of these levers should uplift the Company into a new growth orbit, allowing us to create and deliver value to all our stakeholders.

We are in the early stage of our growth story, with tremendous runway ahead of us. We will continue to build on the strong initiatives that are in place while exploring new opportunities.

I am very grateful to all our stakeholders for your belief and trust in this journey, and I look forward to your continued support.

Warm regards

Aalap Prajapati

Gujarat Terce's has a portfolio of 10 brands that are leaders in their specific categories. Of these, 8 are in the acute segment; the others cater to high-growth chronic therapies.

Owing to the product quality and focused marketing efforts, these products are critical growth levers for the Company and contribute a significant share of its revenue. Every year, the Company executes customised marketing campaigns for each product targeted to a specific cohort of medical practitioners. These efforts have yielded significant results – revenue from these products has grown appreciably (save FY21, which was a blip in the overall trend owing to the pandemic).

Our precious products

Gujarat Terce has a group of precious products. They are precious owing to their efficacy and their brand recognition among medical practitioners, which enables them to generate sizeable revenue for the Company and have the potential to accelerate profitable business growth over the coming years.

The Company's basket comprises ten precious products, divided into three major categories, 1) GP & Physicians, 2) Pediatricians, and 3) Gynecologists. During this financial year, increased marketing and branding initiatives have resulted in a sizeable increase in revenue from these products.

Our therapeutic portfolio

Gujarat Terce has balanced product portfolio between acute and chronic therapies.

Acute care therapy, which is specifically designed to treat acute conditions, is typically shorter than inpatient rehabilitation. Acute care therapy is often provided for those who need short-term assistance.

A chronic condition (also known as chronic disease or chronic illness) is a health condition that is persistent or otherwise long-lasting in its effects or a disease that comes with time. Hence, chronic therapies are used for extended periods of time.

The expected double-digit domestic growth of the pharma market in FY24 and beyond is healthy, considering the high base of previous years, primarily driven by medicines used in treating Covid-19.

Chronic categories are likely to outperform acute segments as visits to hospitals and clinics are back to normal post-covid - a pickup in chronic segment growth is a structurally strong growth driver. The demand for acute therapies (barring covid treatment and management products) is also picking up momentum.

Gujarat Terce enjoys a substantial presence in acute and chronic therapies. Increasing traction for its products enabled the Company to register healthy growth in both segments over the previous year. It also registered a faster-than-the-industry growth in acute and chronic segments (growth figures of Q4/FY23 are showcased below).

The Company's enhanced focus on chronic therapies has resulted in its growing share in the overall revenue mix. This augurs well for the Company in terms of revenue and brand visibility.

Antibiotics

Antibiotics save millions of lives every year all over the world. In India, the use of antibiotics increased manifold in the past two decades because of the availability of the over-the-counter version of the medicine. Additionally, the Covid pandemic put the antibiotics segment under the spotlight.

For Gujarat Terce, the Antibiotics vertical is the largest revenue contributor for the Company accounting for about 29.51% of its topline. Gujarat Terce has a wide variety of antibiotics in its portfolio. Codimol is one of its leading brand in antibiotics basket that earned a revenue of ₹328.30 lakh in FY23.

Respiratory

The rapid air quality deterioration and toxic smog in the cities owing to rapid industrialization and urbanization, has significantly increased respiratory disorders such as infections, asthma and COPD (chronic obstructive pulmonary disease). In FY23, the sale of respiratory drugs in India increased by 49% to ₹1,579 crore on a year-on-year basis.

Gujarat Terce has a strong presence in the respiratory space with 19 products in its product basket - Acolate is its leading brand. The Company is working on populating this product basket with interesting products over the coming years owing to the growing opportunities emerging from this therapeutic area.

Nutraceutical

Covid-19 has brought the nutraceuticals market under the spotlight. The Indian nutraceuticals market is one of the fastest growing segments in the pharmaceutical sector. It is expected to grow at a CAGR of 17.5% from 2020 to 2025 to reach a value of US\$ 18.3 billion. Rapidly changing lifestyles and increasing health consciousness in urban regions drive the Indian nutraceuticals market. The nutraceutical product portfolio of the Company is very large and wide and caters to quite a wide variety of demographics in India. Its three leading brands garnering a revenue of ₹28.67 lakh cumulatively are growing at a rapid pace.

15-minutes with Mr. Bhagirath Maurya, Chief Financial Officer,
on the Company's performance

“We will sharpen our focus on growing the revenue from our existing precious products and increasing our precious products basket with more SKUs – adding new levers to our growth momentum.”

How would you analyze the Company's performance in FY23?

It was a mixed bag. Our financials showcase a muted performance. Unfortunately, our initiatives did not reflect in our numbers as our newly launched Bihar territory could not give the expected outcomes.

Could you give some more color to what you just said?

At the topline, we registered a growth of about 16.56% over the previous year. The growth resulted from our unwavering endeavor to expand our horizon and showcased the growing acceptance of our brands. At the bottomline, we reported a loss primarily because of our team's expansion to manage our expanded market presence. Having said that, I must add that our increased knowledge capital will become an important growth driver in the current year and beyond.

Did you widen your presence into new states in India?

We did not widen our footprint but deepened our presence by establishing ourselves in more districts in existing states. This increased the coverage of the states. After covering every potential district in the states of our presence, we will consider widening our footprint to more states.

What were some of the essential positives for the year?

We focused on building brands. That was our key achievement in FY23. Our one brand (Acolate) clocked revenue above ₹9 crore for Gujarat Terce. Moreover, three brands (Tynol, Codimol, and Ocef) generated revenue above ₹3 crore individually, another three brands (Vitfol, Aziter, Almocef) generated revenue above ₹2 crore individually, and three brands (Moxsil, Resplash and Ferlit) generated revenue of over ₹1 crore individually. These were very satisfying achievements. And we will work on populating our ₹1 crore basket with many more brands over the coming years.

How was the Company's performance from a therapy perspective?

We did well in our lifestyle therapies which were necessary for the Company. Our pediatric and gynecology segments registered remarkable growth, which augurs well for the Company's transformation from a player primarily in acute therapies to a pharma company with a prudently balanced presence between acute and chronic therapies.

Did you introduce any new products?

We introduced four new SKUs. Of these two were relaunches which did reasonably well in the market. The two new

products were in the gynecology and pediatric segment. Both products were well accepted by the doctor fraternity and generated healthy volumes.

What were the other reasons for a negative bottomline besides people cost?

Primarily one. Persistently high inflation bloated our raw material costs. We source 100% of our APIs from domestic sources. But they source their KSM (Key Starting Material) from China – the prices of which scaled significantly. The cost escalation hurt our business profitability. To optimise the impact of the cost escalation, we scaled our batch sizes and negotiated with suppliers.

What is your take on the Company's prospects in FY24?

If you look at our quarterly performance, the first quarter was not as expected. Since then, we have moved from strength to strength to register a net profit of ₹0.80 crore in the fourth quarter. We look forward to sustaining this momentum in the current year. For this, we will sharpen our focus on growing the revenue from our existing precious products and increasing our precious products basket with more SKUs – adding new levers to our growth momentum. We remain hopeful in generating healthy top line growth and positive EBITDA in the next year.

Management Discussion & Analysis

A Commentary on the Economy

Global Economy: Hints of optimism and hope were observed as the global economy recorded a GDP growth of 3.2% (as per IMF) despite the uncertainties encountered in CY22.

The recovery of the global economy is expected to remain on track as Asia is highlighted as the harbinger of growth (contributing 70% of global growth in 2023), thus, resulting in a surge of growth across the region, unlike the somber context of global demand.

Trade in goods and services has shown positive statistics as reported by UNCTAD: Trade in goods grew 10% from last year to approximately US\$25 trillion due to higher energy prices,

and services shot up by 15% to a record US\$7 trillion.

The global economy plunged as the Silicon Valley Bank and Credit Suisse collapsed in close succession during March 2023. However, the silver lining of the banking turmoil is that it will help slow aggregate activity as banks curtail lending. This should, therefore, partially mitigate the need for further monetary tightening to curb inflation which was registered at 8.7% in 2022 and is expected to decline to 7% in 2023.

A fall of 7% of the US dollar between November 2022 and February 2023 could increase demand for goods since dollars dominate most trade.

Tensions escalating worldwide might cause an economic slowdown as IMF forecasts growth to fall from 3.4% in 2022 to 2.8% in 2023. The upside amidst the gloom is the world's onset of the path to sustainability, with demand spurring for environmentally sustainable goods, thus decelerating the need for high carbon content or fossil fuels.

Indian Economy: FY23 witnessed considerable disruptions due to the pandemic-induced contraction, geopolitical tensions and inflation, which recorded a downward trend in the world economy. Despite the turmoil, India soared steadily, recording real GDP of 7.2% for FY23.

India conducted the largest vaccination drive involving over 2 billion doses, saving 3.4 million lives, and it yielded a positive economic impact by preventing a loss of US\$18.3 billion, according to a report by Stanford University.

The country's robust economic growth was underpinned by strong investment activity enabled by the Government's increased capex push to 2.5% of the GDP in FY22 compared to the long-term average of 1.7% of GDP (FY09 to FY20). With impetus placed on a Capex-led

growth strategy, it will enable India to keep the growth-interest rate differential positive, leading to a sustainable debt to GDP in the medium run.

Private final consumption expenditure as a share of GDP FY23 was significantly high – possibly the highest since FY15, which boosted production activity and enhanced capacity utilisation across all sectors.

With a robust annual growth rate of 4.6% over the last six years, the agriculture sector has been able to contribute towards the overall growth of the economy and food security while the industrial sector showed a rise of 3.7% of the overall Gross Value Added (GVA) during the first half of FY23.

A surge in exports was witnessed at 13.84% during FY23, supported by the rupee's depreciation against the dollar.

The economy's resurgence was also backed by GST, which has stabilised to become a vital source of revenue for the Government, with its collection increasing at 24.8% YoY basis. The collection of indirect taxes grew by 14% YoY in FY23, surpassing the required rate of 3.5%, thus achieving the full-year target.

Retail inflation peaked at 7.8% in April 2022. It was controlled by RBI's monetary tightening cycle, which led to its decline to less than 6% in March 2023 - within RBI's tolerance limits.

The economy is steadily getting positioned to tread the pre-pandemic growth path as the Economic Survey 2022-23 highlighted that India has recovered from the pandemic and is expected to register a growth rate of 6-6.5% in FY24.

A bit about our business space

Global Pharma Industry:

During early 2020, the Covid-19 pandemic got the world into a spiral and established clarity about the fact that without new therapies, particularly vaccines, an unending cycle of lockdowns and cycles would persist globally. Consequently, pharmaceutical companies came into the limelight and were compelled to provide results quickly, gradually accelerating their growth globally. Today, it is one of the fastest-growing industries in the world, with a CAGR of 5.70%. Its revenue is projected to reach US\$1,163.00bn in 2023.

The rise in chronic diseases and a steady increase in the geriatric population across the globe susceptible to serious ailments is anticipated to fuel the expansion of the pharmaceutical sector worldwide. Increased use of personalised medicines is also expected to contribute to the industry's growth. Oncology Drugs account for the largest segment in the pharmaceutical industry, with a projected volume of US\$202.30bn in 2023.

The global generics market was valued at USD 439.37 billion in 2022 and is projected to hit around USD 670.82 billion by 2030, growing at a CAGR of

5.4%. Further, due to a rise in chronic diseases and increased clinical trials globally, the global formulation development market is expected to garner US\$51,901.3 Million in revenue and rise at a CAGR of 9.0% during the 2022-2031 time frame.

Indian Pharma Industry: As the frontrunner in producing cost-effective and quality-controlled generic drugs, India supplies around 20% of the global pharmaceutical demand in volume. It is currently ranked third in pharmaceutical production by volume after evolving into a thriving industry growing at a CAGR of 9.43% in the past nine years.

The country is backed by the branded generics market and the domestic players who have established their niche through early investments and nascent formulation development capabilities, contributing to the industry's growth and recognition. The Pharma sector currently contributes around 1.72% of the country's GDP.

One of the greatest success stories in medicine is the accessibility to affordable HIV treatment from India. India is one of the biggest suppliers of low-cost vaccines in the world.

Owing to the low price and high quality, Indian medicines are preferred worldwide, rightly making the country the 'Pharmacy of the World.'

Further, Foreign Direct Investment (FDI) flows into the Pharma Industry have quadrupled, from US\$180 million in FY19 to US\$699 million in FY22. Carrying forward this growth momentum, drug and pharmaceutical exports during April-October 2022 was 22% higher than the corresponding pre-pandemic period of FY20.

The efforts put in by the Government to boost this sector are evident through schemes like Pradhan Mantri Bhartiya Jan Aushadhi Kendras (PMBJKs), which targets to increase the number of PMBJKs to 10,500 by the end of March 2025, its product basket comprising of 1,451 drugs and 240 surgical instruments. Further, The Ministry's scheme "Strengthening of Pharmaceutical Industry (SPI)," with a total financial outlay of US\$60.9 million (₹500 crore), extends support required to existing pharma clusters and MSMEs across the country to improve their productivity, quality and sustainability.

The market size of India's pharmaceutical industry is

anticipated to reach US\$65 billion by 2024 and US\$130 billion by 2030. The government data states that this industry is worth approximately US\$50 billion, with over US\$25 billion of the value coming from exports.

Evolving Trends

M&A: The Indian pharmaceutical, healthcare and biotech sector has been attracting increasing investor interest for quite some time. Foreign investment during the first six months of 2022 was US\$699 million, as against US\$559 million during the same period in 2021. Moreover, the Department of Pharmaceuticals approved 21 FDI proposals worth ₹46.8 billion for brownfield pharmaceutical projects during the first nine months of 2022.

Proactive Quality Management System: The Government had earlier implemented a comprehensive traceability system known as Drug Authentication & Verification Application (DAVA) for both export and domestic markets 2015. With the recent rise in inferior quality formulations from India, pharma companies must significantly strengthen their self-monitoring systems recognising their moral responsibility.

Precision Medicine: Precision medicine emerged from the concept of personalisation and customisation of medical care. The most critical component is to diagnose and treat each patient individually. Precision medicine offers real-time insights into how a specific patient's body responds to pharmaceuticals by combining data management, data privacy, and data analysis through Machine Learning. This knowledge is supposed to improve advanced clinical manufacturing procedures to prepare the needed dosage depending on age, comorbidities, and other clinical parameters.

Tech Adoption: The modern pharmaceutical and healthcare industries are undergoing a massive change owing to the adoption of advanced technologies. Critical pharma business trends include artificial intelligence (AI), data analytics, system biotechnology, curative medicines, gene editing, bioprinting and blockchain.

Growth Opportunities

Research & Development: The Union Budget 2023 highlights R&D as a priority for the pharmaceutical industry and has presented pharma research

innovation programs through centers of excellence. The Government has implemented steps to protect intellectual property rights and build a more transparent regulatory environment, which should encourage more investment in R&D. Indian CROs (Contract Research Organisations), offering customised services with a considerable cost advantage, will make the country highly profitable for outsourcing. An estimated investment of US\$419.2 million in R&D will be witnessed in 2023.

Fostering Collaborations:

During the pandemic, collaborations between academia, Government and industry resulted in an effective strategy for advancing research projects. Continuous communication and coordination between corporate leaders and government officials proved essential during the pandemic and, thus, should remain so in the future.

Government initiatives

Strengthening Pharmaceutical Industry (SPI): Under the Scheme for Strengthening Pharmaceutical Industry (SPI), it addresses the need for Pharma clusters and MSMEs to improve their productivity, quality and sustainability. The scheme aims to foster resilience and future readiness in the existing infrastructure facilities to make India a global leader in the Pharma Sector. The sub-schemes under SPI include:

Assistance to Pharmaceutical Industry for Common Facilities (APICF)	Pharmaceutical Technology Upgradation Assistance Scheme (PTUAS)	Pharmaceutical & Medical Devices Promotion and Development Scheme (PMPDS)
It aims to increase the existing pharmaceutical clusters' capacity for long-term expansion.	Its goal is to aid the Micro, Small and Medium Enterprises (MSMEs) to help achieve compliance with national and international regulatory standards.	Its motive is to bring experts together from academia, industry, and policy to exchange knowledge and experience for the betterment of the pharmaceutical and medical device industries.

Pradhan Mantri Bhartiya Janaushadhi Pariyojana (PMBJP) aims to deliver generic medications at affordable prices through outlets called Pradhan Mantri Bhartiya Janaushadhi Kendras (PMBJK).

Union Budget 2022-23	Union Budget 2023-24
<ul style="list-style-type: none"> ₹86,200 crore has been allocated to the Ministry of Health & Family Welfare. The Government will promote thematic funds for the sunrise sector, like Digital Economy Pharma; the Government's share would be 20%. Tax breaks and incentives for private healthcare facilities in Tier-III, Tier-IV cities and villages have been announced. The National Digital Health Ecosystem was announced, an open forum consisting of registries of health providers & facilities, universal access to health facilities and unique health identities. The 35% yearly increase in budgetary support to capital expenditure could encourage building of new hospitals and other medical facilities. PMSSY was allocated ₹10,000 crore, 43% higher than last year, to boost medical education and set up AIIMS infrastructure. 	<ul style="list-style-type: none"> The allocation to the Ministry of Health & Family Welfare was ₹89,155 crore. An allocation of ₹2,980 crore was made to The Department of Health Research, out of which the Indian Council of Medical Research (ICMR) received ₹2,360 crore with impetus on establishing ICMR labs to promote research and innovation. To attain the vision of "Make AI in India and Make AI work for India," three Centres of Excellence for Artificial Intelligence will be set up in top educational institutions. The AYUSH ministry received ₹3,647 crore, an increased allocation of 28% compared to FY23. The Ministry has set aside ₹6,835 crore to establish 22 new All India Institute of Medical Sciences (AIIMS). The establishment of 157 new medical colleges has been announced, which will help bridge the gap in the number of nurses required per bed. A mission for eliminating sickle cell anemia by 2047 has been announced, which will allow universal screening of 7 crore people between 0 and 40 years in affected tribal areas.

Segmental Review

Ayurvedic Medicine: As the prevalence of medical disorders and health-conscious mindset among consumers increases, people constantly seek a safe and healthy alternative to synthetic chemicals, bolstering the market for ayurvedic medicine. These medicines use herbal supplements that help restore body balance by addressing various health concerns without causing any side effects. The Indian ayurvedic products market size reached INR 626 billion in 2022. Further, the estimates presented by the IMARC Group suggest that the market will reach INR 1,824 billion by 2028, exhibiting a growth rate (CAGR) of 19.3% during 2023-2028.

Respiratory Medicine: Respiratory medicines are used to treat pulmonary diseases. Respiratory infections, increased exposure to air pollution and the growing smoking population globally are expected to augment the demand for innovative and effective treatment of respiratory diseases. An estimate suggests that the respiratory drugs market is poised to grow by US\$26.95 bn during 2022-2026 progressing at a CAGR of 5.96% during the forecast period.

Gynaecology Medicine: This field focuses on women's reproductive health issues, including diagnosing and treating diseases of the female reproductive organs. A significant rise in the number of women who have ovarian cancer has been observed, which would potentially increase the demand for gynecological drugs. According to an estimate, the global gynecology drug market grew from US\$26.46 bn in 2022 to US\$28.09 bn in 2023 at a CAGR of 6.2%.

Antibiotics: Antibiotics refer to medicines that are among the most prescribed courses worldwide for battling bacterial infections, primarily in outpatient settings. The widespread infectious diseases, vulnerable aging population and the need for new and effective antibiotics drive the market growth.

Pain Therapy: Pain is a symptom of various injuries, infections and diseases, which can be acute or chronic. To cope with the same, a pain management plan is advised, which includes medications, injections, therapy and exercise. Revenue in the Analgesics segment amounts to US\$33.16bn in 2023. The market is expected to grow annually by 6.49% (CAGR 2023-2027).

Gastroenterology: The study of diseases related to the Gastrointestinal tract (from mouth to anus) comes under the field of gastroenterology. A digestive disease may develop due to multiple factors such as fatigue, diet or smoking. Alcohol intake causes a significant risk for cancer in the Gastrointestinal (GI) tract. Approximately 40% of adults suffer from GI problems that increase with age.

Nutraceutical: Nutraceutical is an umbrella term that includes products derived from food sources that offer extra health benefits along with essential nutritional value found in foods. These products are often grouped into four categories: dietary supplements, functional food, medicinal food, and pharmaceuticals. The global nutraceuticals market size was valued at US\$291.33 billion in 2022 and is expected to grow at a compound annual growth rate (CAGR) of 9.4% from 2023 to 2030.

The Company has an extensive basket of 52 Brands (135 products) with a portfolio contributing to 10 therapeutic areas. Its unwavering focus on research has enabled it to identify gaps in existing health remedies in select therapies and plug them with effective solutions.

Operational performance

It was an exciting year as the sales teams worked tirelessly in expanding the Company's marketing presence and increase revenue from its precious products. The Company deepened its presence in existing states. Besides, the Company worked on optimising its operating costs under all heads with considerable success. The Company added few good products which will allow it to increase the revenue share from chronic therapies.

Financial performance

FY23 was a mixed bag for the Company. While the topline improved over the previous year, the bottomline dropped, with the Company reporting a Net Loss for the year under review.

Revenue from operations increased by 16.57% from ₹4013.37 lakh in FY22 to ₹4678.25 lakh owing to an increase in sales volumes. This is a positive for the Company as it showcases growing acceptance of the Company's products.

Inflationary headwinds prevailing through the year impacted business profitability. EBITDA dropped by 238.30% from ₹130.73 lakh in FY22 to ₹-180.80 lakh in FY23. Consequently, the Company reported a Net Loss of ₹167.16 lakh in FY23 profit of ₹87.23 lakh in FY22. And Networth dropped to ₹686.27 lakh as on March 31, 2023, from ₹853.43 lakh as on March 31, 2022. The Company's total debt stood at ₹727.22 lakh on March 31, 2023, against ₹667.1 lakh on March 31, 2022.

Internal control & its adequacy

The Company has appointed DV Shah & Associates as internal auditors. The prime objective of this audit is to test the adequacy and effectiveness of all internal control systems and suggest improvements.

The Company maintains appropriate internal control systems, including monitoring procedures, to ensure that all assets are safeguarded against unauthorised use or disposition loss. Significant issues are brought to the audit committee's attention for periodical review.

The Company policies, guidelines and procedures provide adequate checks and balances to ensure all transactions are authorised, recorded and reported correctly. The Audit Committee approves and reviews audit plans for the year based on internal risk assessment. Audits are conducted on an ongoing basis, and sufficient deviations are brought to the notice of the Audit Committee of the Board, following which corrective action is recommended for implementation. All these measures facilitate the timely detection of any irregularities and early remedial steps with no monetary loss.

The internal audit function is further strengthened in consultation with statutory auditors for monitoring statutory and operational issues. Adherence to statutory compliance is a key focus area for the Company's entire leadership team.

We continuously strive to integrate the entire organisation, from strategic support functions like finance, human resources, and regulatory affairs to core operations like research, manufacturing and supply chain.

We continue to build our team with quality talent and put thrust on providing continuous training to be competitive.

Human resource

Gujarat Terce values its intellectual capital as an essential growth driver for doing business sustainably and profitably. It invests time and money to develop various programs that help upgrade its workforce in terms of skill and capability to address current and future business needs.

During the year under review, the Company organised programs to upgrade the skillset of its shopfloor employees and seminars and workshops for select middle management members to develop their leadership attributes.

The Company stresses people-to-people interaction to ensure the best working chemistry between the management and the workers. This has increased operational productivity and engagement, leading to a remarkable rise in effective person-hour utilisation. Industrial Relations continued to be cordial. The Company had 358 employees on its rolls as on March 31, 2023.

Risk management

At Gujarat Terce, our risk strategy is determined by a risk appetite defined by a series of risk criteria. The criteria are based on sectoral circumstances, internal capabilities, and our earnings target within accepted volatility limits.

The Board and leadership team work tirelessly to mitigate possible risks that bring along potential disruption in smooth business operations. This explains our creation of a robust risk management framework that caters to strategic, financial, operational and climate risks.

The Company's risk management framework sets guidelines to ensure sustainability within the Business Model. The risk management committee works closely on curating the mitigation plans for possible risks that might impact our business.

Cautionary Statement

The Management Discussion & Analysis Report may contain certain forward-looking statements within the meaning of applicable securities, laws and regulations. These statements are subject to certain risks and uncertainties. Actual results may differ materially from those expressed in the statements as important factors such as Government policies, tax laws, and political and economic development could influence the Company's operations.

REPORT ON CORPORATE GOVERNANCE

At Gujarat Terce Laboratories Limited, the Corporate Governance is about creating the value of all stakeholders, accountability and fairness towards stakeholders. This section on Corporate Governance forms part of the Annual Report to the shareholders. It is not mandatory to give this report in terms of Regulation 15(2) of the SEBI (LODR) Regulations, 2015. Corporate Governance is, essentially, a philosophy. It encompasses not only the regulatory and legal requirements, but also the voluntary practices developed by the company to protect the best interests of all stakeholders. However, in the harsh realities of day to day economic stress and competitive growth, corporate governance can only deliver on an avowed philosophy if there is a strong and sustainable framework.

1. CORPORATE GOVERNANCE

1.1 Gujarat Terce's Philosophy On Corporate Governance:

At Gujarat Terce, Corporate Governance has been an integral part of the way we have been doing our business since inception. We believe that good Corporate Governance emerges from the application of the best and sound management practices and compliance with the laws coupled with adherence to the highest standards of transparency and business ethics. These main drivers, together with Company's ongoing contributions to the local communities through meaningful "Corporate Conscience" will play a pivotal role in fulfilling our renewed vision to be the most sustainable and competitive Company in our industry and our mission to create value for all our stakeholders.

The Company places great emphasis on values such as empowerment and integrity of its employees and communities surrounding our factory, transparency in decision making process, fair and ethical dealings with all, pollution free clean environment and last but not the least, accountability to all the stakeholders. These practices being followed since inception have contributed to the Company's sustained growth.

1.2 The Corporate Structure:

Terce's Corporate Structure is based on the principles of freedom to the executive management within a given framework to ensure that the powers vested in the executive management are exercised with due care and

responsibility so as to meet the expectations of all the stakeholders. In line with these principles, the Company has formed three tiers of Corporate Governance structure, viz.:

- (i) The Board of Directors:- The primary role of the Board is to protect the interest and enhance value for all the stakeholders. It conducts overall strategic supervision and control by setting the goals and targets, policies, governance standards, reporting mechanism and accountability and decision making process to be followed.
- (ii) Committees of Directors:- The committees of the Board such as Audit Committee, Nomination and Remuneration Committee and Stakeholder Relationship Committee are focused on financial reporting, audit and internal controls, appointment and remuneration of Directors and Senior Management Employees, Legal & Compliances issues.
- (iii) Executive Management:- The entire business including the support functions are managed with clearly demarcated responsibilities and authorities at different levels.

2. BOARD OF DIRECTORS

A. COMPOSITION OF THE BOARD OF DIRECTORS

The Board of Directors (Board) along with its Committees provides leadership and guidance to the Management and directs and supervises the performance of the Company, thereby enhancing stakeholders value. The Board has a fiduciary relationship in ensuring that the rights of all stakeholders are protected. The Board of the Company is independent in making its decision and also capable and committed to address conflict of interest and impress upon the functionaries of the Company to focus on transparency, accountability, probity, integrity, equity and responsibility.

Apart from that, the Board also discharges its responsibilities / duties as mentioned under the provisions of SEBI (Listing Obligations & Disclosure Requirements) Regulations, 2015 ("Listing Regulations") and Companies Act, 2013 ("Act").

The Board, as part of its succession planning exercise, periodically reviews its composition to

ensure that the same is closely aligned with the strategy and long-term needs of the Company. The Board of the Company is having an optimum combination of Executive and Non-Executive Directors. The Board consists of 7 Directors out of which, 3 are Executive Directors and 4 are Non-Executive Independent Directors. The Chairman of the Company is an Executive Director and Promoter of the Company and hence the

requirement that at least one-half of the Board shall consist of Independent Directors is complied with as the Company has 4 Independent Directors. All of the Independent Directors have extensive business experience and are considered by the Board to be independent in character and judgment of the management of the Company and free from any business or other relationship, which could materially interfere with the exercise of their independent judgment.

As on March 31, 2023, the composition of the Board is as under which is in conformity with the Listing Regulations and the Act:

Independent Auditor's Report

To the Members of **Gujarat Terce Laboratories Limited**

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the financial statements of Gujarat Terce Laboratories Limited ("the Company"), which comprise the balance sheet as at 31st March 2023, and the statement of Profit and Loss and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March 2023, its loss and its cash flows for the year ended on that date.

Basis for Opinion

We have conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report:

- In January 2018, the board of directors of the company had decided to discontinue the operations of the Metal Division, which had already been suspended by the management for some years. Since the financial year ending on 31st March 2018, the Metal Division has been classified as Discontinued Operations. At the time of such classification, the recoverable amount of items of property, plant and equipment was estimated based on the report of a registered valuer. For the financial year ended on 31st March 2023, no financial transactions or impairment losses have been identified for the said division.

Information other than the financial statements and auditors' report thereon

The Company's board of directors is responsible for the preparation of the other information. The other information comprises the information included in the Board's Report including Annexures to Board's Report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements, or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under section 133 of the Act read with Companies (Indian Accounting Standards) Rules, 2015. This responsibility also includes maintenance of adequate accounting

records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design

audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the 'Annexure A', a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
 - d) In our opinion, the aforesaid financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015.
 - e) On the basis of the written representations received from the directors as on 31st March 2023 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March 2023 from being appointed as a director in terms of Section 164(2) of the Act.
 - f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in 'Annexure B'.
 - g) With respect to the matter to be included in the Auditor's Report under section

197(16), In our opinion and according to the information and explanations given to us, the remuneration paid by the Company to its directors during the current year is in accordance with the provisions of section 197 of the Act. The remuneration paid to any director is not in excess of the limit laid down under section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under section 197(16) which are required to be commented upon by us.

- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - (i) The details of pending litigations of the Company have been disclosed in Note 34 to the financial statements. However, no impact of the same has been determined on its financial position, as the matter is pending before the respective authorities.
 - (ii) The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - (iii) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
- i) (i) The management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the company to or in any other person(s) or entity(ies), including foreign entities ("intermediaries"), with the understanding, whether recorded in writing or otherwise, that the intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company ("ultimate beneficiaries") or provide any guarantee, security or the like on behalf of the ultimate beneficiaries;
- (ii) The management has represented, that, to the best of its knowledge and

belief, no funds have been received by the company from any person(s) or entity(ies), including foreign entities ("funding parties"), with the understanding, whether recorded in writing or otherwise, that the company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the funding party ("ultimate beneficiaries") or provide any guarantee, security or the like on behalf of the ultimate beneficiaries; and

- (iii) Based on such audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the

representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

- j) No dividends have been declared or paid during the year by the company.
- k) Proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 for maintaining books of account using accounting software which has a feature of recording audit trail (edit log) facility is applicable to the company with effect from 1st April 2023, and accordingly, reporting under Rule 11(g) of Companies (Audit and Auditors) Rules, 2014 is not applicable for the financial year ended on 31st March 2023.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Gujarat Terce Laboratories Limited ("the Company") as of 31st March 2023, in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal

financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also,

projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system

over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO FINANCIAL STATEMENTS for the period ended 31st March 2023

The previous year figures have been regrouped/ reclassified, wherever necessary to conform to the current year presentation.

Note No. 1: Statement of Compliance

Standalone Financial Statements have been prepared in accordance with the accounting principles generally accepted in India, including Indian Accounting Standards (Ind AS) prescribed under the Section 133 of the Companies Act, 2013 read with rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 as amended, and relevant provisions of the Companies Act, 2013. Accordingly, the Company has prepared these Standalone Financial Statements which comprise the Balance Sheet as at 31 March 2023, the Statement of Profit and Loss for the year ended 31 March 2023, the Statement of Cash Flows for the year ended 31 March 2023 and the Statement of Changes in Equity for the year ended as on that date, and accounting policies and other explanatory information (together hereinafter referred to as 'Standalone Financial Statements' or 'financial statements').

Basis of preparation of financial statements:

The separate financial statements of the company are prepared in accordance with Indian Accounting Standards (Ind AS), under the historical cost convention on the accrual basis as per the provisions of the Companies Act, 2013 ("the Act"), except for:

- Financial instruments – measured at fair value.
- Assets held for sale – measured at fair value less cost of sale.
- Plan assets under defined benefit plans – measured at fair value.

Current and non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is classified as current when it satisfies any of the following criteria:

- it is expected to be realised in, or is intended for sale or consumption in, the Company's normal operating cycle; or
- it is held primarily for the purpose of being traded; or
- it is expected to be realised within 12 months after the reporting date; or
- it is cash or cash equivalent unless it is restricted

from being exchanged or used to settle a liability for at least 12 months after the reporting date.

All other assets are classified as non-current.

A liability is classified as current when it satisfies any of the following criteria:

- it is expected to be settled in the Company's normal operating cycle; or
- it is held primarily for the purpose of being traded; or
- it is due to be settled within 12 months after the reporting date; or
- the Company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current only.

The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter. Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

The Standalone Financial Statements have been presented in Indian Rupees (INR), which is the Company's functional currency. All financial information presented in INR has been rounded off to the nearest two decimals of thousands, unless otherwise stated.

Use of estimates and judgments

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Actual results could differ from those estimates.

This note provides an overview of the areas where there is a higher degree of judgment or complexity. Detailed information about each of these estimates

NOTES TO FINANCIAL STATEMENTS for the period ended 31st March 2023

and judgments is included in relevant notes together with information about the basis of calculation.

The areas involving critical estimates or judgments are:

- Defined Benefit Obligation – Note 18
- Deferred tax assets for carried forward tax losses – Note 6

Estimates and judgments are regularly revisited. Estimates are based on historical experience and other factors, including futuristic reasonable information that may have a financial impact on the company.

Significant Accounting Policies

A summary of the significant accounting policies applied in the preparation of the financial statements is given below. These accounting policies have been applied consistently to all the periods presented in the financial statements.

1. Property, Plant and Equipment

The cost of property, plant and equipment comprises its purchase price net of any trade discounts and rebates, any import duties and other taxes (other than those subsequently recoverable from the tax authorities), any directly attributable expenditure on making the asset ready for its intended use, including relevant borrowing costs for qualifying assets and any expected costs of decommissioning. Expenditure incurred after the property, plant and equipment have been put into operation, such as repairs and maintenance, are charged to the Statement of Profit and Loss in the year in which the costs are incurred. Major shutdown and overhaul expenditure is capitalised as the activities undertaken improves the economic benefits expected to arise from the asset.

It includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Company's accounting policy based on Ind AS 23 – Borrowing costs. Such properties are classified to the appropriate categories of PPE when completed and ready for intended use.

Assets in the course of construction are capitalised in the assets under construction account. At the point when an asset is operating at management's intended use, the cost of construction is transferred to the appropriate category of property, plant and equipment and depreciation commences. Costs associated with the commissioning of an asset and any obligatory decommissioning costs are

capitalised where the asset is available for use but incapable of operating at normal levels until a year of commissioning has been completed. Revenue generated from production during the trial period is capitalised.

Property, plant and equipment except freehold land held for use in the production, supply or administrative purposes, are stated in the balance sheet at cost less accumulated depreciation and accumulated impairment losses, if any.

The Company has elected to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements on transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition.

Subsequent expenditure and componentisation

Parts of an item of PPE having different useful lives and significant value and subsequent expenditure on Property, Plant and Equipment, arising on account of capital improvement or other factors, are accounted for as separate components only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Depreciation and useful life

Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value. Depreciation is recognised so as to write off the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives, using straight-line method as per the useful life prescribed in Schedule II to the Companies Act, 2013 except in respect of following categories of assets, in whose case the life of the assets has been assessed as under based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers warranties and maintenance support, etc.

NOTES TO FINANCIAL STATEMENTS for the period ended 31st March 2023

Major overhaul costs are depreciated over the estimated life of the economic benefit derived from the overhaul. The carrying amount of the remaining previous overhaul cost is charged to the Statement of Profit and Loss if the next overhaul is undertaken earlier than the previously estimated life of the economic benefit.

The Company reviews the residual value, useful lives and depreciation method annually and, if expectations differ from previous estimates, the change is accounted for as a change in accounting estimate on a prospective basis.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Derecognition

An item of PPE is de-recognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in Statement of Profit and Loss.

2. Impairment

At the end of each reporting year, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. Where a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing

value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

An impairment loss is recognised immediately in the Statement of Profit and Loss.

3. Inventories

Raw Materials

Raw materials and stores, work in progress, traded and finished goods are stated at the lower of cost and net realisable value. Cost of raw materials and traded goods comprises cost of purchases.

Work-in-Progress and Finished Goods

Cost of work-in-progress and finished goods comprises direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure. Fixed overheads are allocated on the basis of normal operating capacity. Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition. Cost includes the reclassification from equity of any gains or losses on qualifying cash flow hedges relating to purchases of raw material. Costs are assigned to the individual items in a group of inventories on the basis of weighted average cost basis. Costs of purchased inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Costs of inventories are determined on weighted average basis. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

Stores and Spares

Inventory of stores and spare parts is valued at weighted average cost or net realisable value, whichever is lower. Provisions are made for obsolete and non-moving inventories. Unserviceable and scrap items, when determined, are valued at estimated net realisable value.

NOTES TO FINANCIAL STATEMENTS for the period ended 31st March 2023

4. Non-current Assets held-for-sale and Discontinued Operations

Non-current Assets held-for-sale

Non-current assets or disposal groups are classified as held for sale if their carrying amounts will be recovered principally through a sale transaction rather than through continuing use.

Such assets or disposal groups are classified only when both the conditions are satisfied:

- The sale is highly probable; and
- The asset or disposal group is available for immediate sale in its present condition, subject only to terms that are usual and customary for sale of such assets.

Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification as held for sale, and actions required to complete the plan of sale should indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn. Non-current assets or disposal group are presented separately from the other assets in the balance sheet. The liabilities of a disposal group classified as held for sale are presented separately from other liabilities in the balance sheet.

Upon classification, non-current assets or disposal group held for sale are measured at the lower of carrying amount and fair value less costs to sell. Non-current assets which are subject to depreciation are not depreciated or amortized once those classified as held for sale.

Discontinued Operations

A discontinued operation is a component of the entity that has been disposed of or is classified as held for sale and that represents a separate major line of business or geographical area of operations, is part of a single co-ordinated plan to dispose of such a line of business or area of operations, or is a subsidiary acquired exclusively with a view to resale. The results of discontinued operations are presented separately in the statement of profit and loss.

5. Revenue Recognition

Sale of Goods

Revenue is measured at the fair value of the consideration received or receivable. The Company recognises revenues on sale of

products, net of discounts, sales incentives, rebates granted, returns, sales taxes/GST and duties when the products are delivered to customer or when delivered to a carrier for export sale, which is when title and risk and rewards of ownership pass to the customer. Export incentives are recognised as income as per the terms of the scheme in respect of the exports made and included as part of export turnover.

Revenue from sales is recognised when control of the products has transferred, being when the products are delivered to the customer, the customer has full discretion over the channel and price to sell / consume the products, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract or the acceptance provisions have lapsed.

Interest Income

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

6. Foreign Exchange Translation

The functional currency of the Company is Indian Rupees which represents the currency of the primary economic environment in which it operates.

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions are generally recognised in profit or loss. Monetary balances arising from the transactions denominated in foreign currency are translated to functional currency using the exchange rate as on the reporting date. Any gains or loss on such translation, are generally recognised in profit or loss.

NOTES TO FINANCIAL STATEMENTS for the period ended 31st March 2023

Exchange differences on monetary items are recognised in Statement of Profit and Loss in the year in which they arise except for exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings.

Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the Statement of Profit and Loss, within finance costs. All other foreign exchange gains and losses are presented in the Statement of Profit and Loss on a net basis within other gains/(losses).

7. Income Taxes

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

Current Tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the Statement of Profit and Loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates and laws that have been enacted or substantively enacted by the end of the reporting period.

In respect of the provisions relating to Minimum Alternate Tax (MAT), the company has availed of the benefit of reduced tax rate u/s 115BAA of the Income Tax Act, 1961, pursuant to which, the company is no longer required to pay the MAT on its income.

Deferred Tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the Financial Statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which

those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in Other Comprehensive Income or directly in equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

8. Borrowing Costs

Borrowing costs, general or specific, that are directly attributable to the acquisition or construction of qualifying assets is capitalized as part of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for intended use. All other borrowing costs are charged to the Statement of Profit and Loss.

NOTES TO FINANCIAL STATEMENTS for the period ended 31st March 2023

The Company determines the amount of borrowing costs eligible for capitalisation as the actual borrowing costs incurred on that borrowing during the year less any interest income earned on temporary investment of specific borrowings pending their expenditure on qualifying assets, to the extent that an entity borrows funds specifically for the purpose of obtaining a qualifying asset. In case if the Company borrows generally and uses the funds for obtaining a qualifying asset, borrowing costs eligible for capitalisation are determined by applying a capitalisation rate to the expenditures on that asset.

Borrowing cost includes exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the finance cost.

9. Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

Provisions for restructuring are recognised by the Company when it has developed a detailed formal plan for restructuring and has raised a valid expectation in those affected that the Company will carry out the restructuring by starting to implement the plan or announcing its main features to those affected by it.

Provisions are measured at the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material). The measurement of provision for restructuring includes only direct expenditures arising from the restructuring, which are both necessarily entailed by the restructuring and not associated with the ongoing activities of the Company.

10. Employee Benefits

Employee benefits include salaries, wages, contribution to provident fund, gratuity,

leave encashment towards un-availed leave, compensated absences, post-retirement medical benefits and other terminal benefits.

Short-term Employee Benefits

Wages and salaries, including non-monetary benefits that are expected to be settled within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service. Liabilities recognised in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Company in respect of services provided by employees up to the reporting date.

Post-employment Benefits

- Defined Benefit Plan**

Defined benefit plans comprising of gratuity, post-retirement medical benefits and other terminal benefits, are recognized based on the present value of defined benefit obligations which is computed using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. These are accounted either as current employee cost or included in cost of assets as permitted.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

NOTES TO FINANCIAL STATEMENTS for the period ended 31st March 2023

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

11. Earnings per Share

Basic Earnings per Share

Basic earnings per share is computed by dividing the net profit after tax by weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the year is adjusted for treasury shares, bonus issue, bonus element in a rights issue to existing shareholders, share split and reverse share split (consolidation of shares).

Diluted Earnings per Share

Diluted earnings per share is computed by dividing the profit after tax after considering the effect of interest and other financing costs or income (net of attributable taxes) associated with dilutive potential equity shares by the weighted average number of equity shares considered for deriving basic earnings per share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares including the treasury shares held by the Company to satisfy the exercise of the share options by the employees.

Note No. 33: Discontinued Operations

On 1st January 2018, the board of directors of the company decided to discontinue the operations of the Metal Division, which had been suspended by the management since last few years. As at 31st March 2018, the Metal Division was classified as Discontinued Operations. The Metal Division which was earlier shown as an operating segment is no longer presented in the segment report.

For the financial year ended on 31st March 2023, no financial transactions have occurred relating to the Metal Division and there are no results to be declared for the same.

The major classes of assets and liabilities of the metal division classified as held-for-sale in accordance with Ind AS 105 as on 31st March 2023 are presented as follows:

Particulars	₹ in Lakhs	
	As at 31st March 2023	As at 31st March 2022
Note No. 7: Other Non-Current Assets		
Property, Plant & Equipment	436.90	436.90
Other Financial Assets	2.54	2.54
Total amount of Non-current Assets Held-for-Sale	439.44	439.44

At the time of classification of the Metal Division as a discontinued operation, the recoverable amount of items of property, plant and equipment was estimated based on the report of a registered valuer. As per the report of the registered valuer dated 18th May 2022, no impairment losses were identified in the value of property, plant and equipment.

Note No. 34: Contingent Liabilities

The Income Tax Department has made additions to the income of the company on various grounds for the financial years 2010-11, 2011-12, 2012-13 and 2013-14, against which, the company had preferred appeals before the Commissioner of Income Tax (Appeals) during the respective periods in which the matters were decided. The appeals were disposed of by the Commissioner with a reduction in demands, which were duly paid by the company against the appeal orders. However, in respect of those matters, the Income Tax Department has preferred further appeals before the Income Tax Appellate Tribunal, Ahmedabad, and the matters were decided by the Hon. Tribunal against the company. The company has filed a Miscellaneous Application for rectification of the said orders. The matter is pending before the Hon. Tribunal. As per the opinion of the consultant of the company, the amount of potential liability, if any, in respect of the pending matter is not ascertainable at this stage.
